### Important events to be reported: Signing of a significant contract

The management of 2B Intelligent Software S.A. (hereinafter referred to as the "Company") informs the market about the signing of a significant contract, in the capacity of subcontractor, within a Consortium, that was designated as the winner of a procurement procedure organized by a company operating in the energy sector, for the implementation of a complex IT system aimed at optimizing operational processes.

Based on the subcontracting agreement, the Company's estimated revenues from the implementation and delivery of the project amount to approximately RON 34 million, exceeding the 10% threshold of the Company's annual turnover for 2024.

The scope of the Company's participation includes the implementation of the hardware infrastructure required for the project, as well as the delivery and integration of its proprietary software solution, Bento Field Service Management (Bento FSM). The contract has a total duration of 72 months, covering the implementation, warranty, post-warranty, and additional post-warranty service periods.

At this moment, no further details regarding the contract can be disclosed, as such information will become public only after the publication of the contract awarded to the Consortium in the Electronic Public Procurement System (SEAP).
